

What's covered?

Your Warranty Professionals vehicle warranty covers you for a huge range of parts and the labour times involved to repair or replace them. Platinum and Gold both include around 6,000 mechanical, electrical and electronic components, whereas Silver covers a wide range of listed items.

Component	Platinum	Gold	Silver
Engine	✓	✓	Listed parts
Gearbox and transmission	✓	✓	Listed parts
Drive system	✓	✓	Listed parts
Clutch	✓	✓	Listed parts
Braking system	✓	✓	Listed parts
Steering system	✓	✓	Listed parts
Cooling system	✓	✓	Listed parts
Suspension	✓	✓	Listed parts
Electrical / electronic parts	✓	✓	Listed parts
Fuel system	✓	✓	Listed parts
Wheel hubs and bearings	✓	✓	Listed parts
Hybrid & electric vehicles	✓	✓	Listed parts
Casings	✓	✓	Listed parts
Working materials	✓	✓	Listed parts
Air conditioning (exc. recharging)	✓	✓	Listed parts
Ignition system	✓	✓	Listed parts
Camshaft timing belt / chains	✓	✓	Listed parts
Dual mass flywheel	✓	✓	x
Supercharger (factory-fitted)	✓	✓	x
Turbocharger (factory-fitted)	✓	✓	x
In-car entertainment	✓	✓	x
Remote key fobs / key cards	✓	✓	x
Diagnosis costs (up to 1 hour)	✓	✓	x
DPF / catalytic converter	✓	x	x
12v vehicle battery (exc. EVs & hybrids)	✓	x	x
Oil seals and gaskets	✓	x	x
Wear and Tear	✓	x	x

Specific part or fault type exclusions

These are the parts or faults that are excluded from all Plan Types. They're mostly bodywork, trim, general maintenance and serviceable items.

- ✗ **Service and consumable items** -- including but not limited to brake pads & discs, brake drums, brake linings, shoes and seized calipers, injectors (unless **You** have the Platinum Plan Type), tyres, wheel alignment and balancing, bulbs, LED's, Xenon starter units, spark plugs, fuses, brake & clutch friction material, burnt or worn out clutch components, seized brake callipers, any seized components, air conditioning recharging, gaskets, hoses & pipes, all blockages, perishable rubber items, oil seals, oil or fluid leaks (unless **You** have the Platinum Plan Type), fuel tanks and clearing of fuel lines, connectors, air bags and associated systems, auxiliary drive belts, hardware i.e. bolts and fixings.
- ✗ **Engine and turbo** - sprockets, burnt/carbonised valves and valve seats, removal of carbon deposits, cracked blocks or cylinder heads, cylinder head skimming or refacing, core plugs, cambelt/chain damage if the cambelt/chain and associated parts haven't been replaced in line with the manufacturer's recommendations.
- ✗ **Steering** – all leaks.
- ✗ **Electrical or electronic items** - heating elements, glow plugs, connectors/terminals, wiring, batteries (unless **You** have the Platinum Plan Type), software and software updates, reprogramming or adjustments, tracker systems, vehicle tracking systems, head unit display, radio recoding and light units.
- ✗ **Electric / hybrid vehicles** – batteries, electric charging cable/socket, wiring and HV cabling, HV battery housing, HV cells/modules and HV battery cooling and venting.
- ✗ **Bodywork and trim** - paintwork, bodywork, chassis, interior, seats, upholstery, fabric roofs, panoramic sunroof, sunroof guides, convertible roofs, wheels, glass (including front and rear heated screens & elements), air vents, handles, locks, catches, brackets, mountings, supports, wiper arms and blades, fixings, fastening devices, weather strips, sheet metal.
- ✗ **Ancillary items and faults** - water ingress, corrosion or oxidation, faulty workmanship, accidental damage to the radiator or A/C condenser, exhaust systems, exhaust manifolds, emissions failures, carbon build-up, repairs to rectify issues such as high oil consumption or poor fuel economy where no component has broken, oil or fluid contamination including staining or misting, waste disposal, key blades, sealing materials and compounds.
